NovaCore Smart Systems

Official Customer Service Knowledge Base & FAQ Database

This document contains standard operating procedures, policies, and frequently asked questions for NovaCore Smart Systems. It is intended for customer support reference and automated assistant training.

Section 1: General & Account Information

1. How do I create a NovaCore account?

You can create an account by downloading the NovaCore mobile app or visiting our website at www.novacoresystems.com. Click on "Sign Up," enter your email address, and follow the verification steps sent to your inbox.

2. How can I reset my password?

Click on the "Forgot Password" link on the login screen. Enter the email address associated with your account, and we will send you a secure link to reset your password. The link expires in 24 hours.

3. Can I share my smart home access with family members?

Yes, you can invite up to 5 family members to your NovaCore ecosystem. Go to "Settings" > "Family Sharing" in the app, and enter their email addresses to send them an invitation link.

4. How do I update my profile information?

Log into your account on the web portal or mobile app. Navigate to "Account Settings" where you can update your name, contact phone number, and physical address.

5. How do I delete my account?

To permanently delete your account, log into the web portal, go to "Privacy Settings," and select "Delete Account." Please note that this action is irreversible and will immediately disconnect all linked smart devices.

6. What are your customer support operating hours?

Our live chat and phone support are available Monday through Friday, 8:00 AM to 8:00 PM Eastern Time. Email support is monitored 24/7, with responses typically provided within 12 hours.

7. How can I contact customer service?

You can reach us via live chat in the NovaCore app, by calling 1-800-555-0199, or by emailing support@novacoresystems.com.

8. Is the NovaCore app available on all smartphones?

The NovaCore app is available for download on iOS devices (iOS 14 and newer) via the Apple App Store, and on Android devices (Android 9.0 and newer) via the Google Play Store.

9. Do you offer a customer loyalty program?

Yes, our NovaPlus Rewards program is free to join. Customers earn points on all hardware purchases and monthly software subscriptions, which can be redeemed for discounts on future purchases.

10. How do I opt out of marketing emails?

You can unsubscribe at any time by clicking the "Unsubscribe" link at the bottom of any promotional email, or by toggling off "Marketing Communications" in your account preferences.

Section 2: Billing, Payments, & Subscriptions

11. What payment methods do you accept?

We accept Visa, Mastercard, American Express, Discover, PayPal, and Apple Pay. We do not accept personal checks, money orders, or cryptocurrency at this time.

12. When will I be billed for my NovaProtect cloud subscription?

You will be billed automatically on the same day each month that you originally activated your subscription. For example, if you subscribed on the 14th, you will be billed on the 14th of every subsequent month.

13. How do I change my billing payment method?

Log into the web dashboard and navigate to "Billing." Click "Update Payment Method," enter your new card or PayPal details, and click "Save." This new method will be used for all future charges.

14. Can I pause my cloud video storage subscription?

Yes, you can pause your NovaProtect subscription for up to 3 months per calendar year. Go to "Billing" > "Manage Subscription" and select "Pause." Your devices will revert to local storage only during this time.

15. How do I cancel my subscription?

To cancel, navigate to "Billing" > "Manage Subscription" and select "Cancel Subscription." Your service will remain active until the end of your current billing cycle, after which you will not be charged again.

16. What is your refund policy for subscriptions?

We offer a 14-day money-back guarantee for all new annual subscriptions. Monthly subscriptions are non-refundable, but you can cancel at any time to prevent future charges.

17. Why was my credit card declined?

Cards are typically declined due to expired details, insufficient funds, or bank fraud blocks. Please verify your card details, contact your bank to authorize the transaction, or try a different payment method.

18. How do I get a copy of my invoice?

Invoices are automatically emailed to you upon payment. You can also download PDF copies of all past invoices from the "Billing History" section of your online account.

19. Do you offer an annual billing discount?

Yes, customers who choose to pay annually for the NovaProtect cloud service receive a 20% discount compared to the month-to-month rate.

20. Are there any hidden setup or cancellation fees?

No, NovaCore does not charge any hidden activation, setup, or cancellation fees. You pay only for the hardware you purchase and the subscription tier you select.

Section 3: Shipping, Delivery, & Returns

21. Where do you ship to?

We currently ship hardware to the contiguous United States, Canada, the United Kingdom, and the European Union. We do not ship to P.O. boxes or APO/FPO addresses at this time.

22. How much does shipping cost?

Standard shipping is free on all hardware orders over $50. For orders under $50, a flat rate of $5.99 applies. Expedited 2-day shipping is available for $15.99.

23. How can I track my order?

Once your order ships, you will receive an email with a tracking number and a link to the courier's website. You can also view real-time tracking updates in the "Order History" section of your account.

24. Can I change my shipping address after placing an order?

Shipping addresses can only be changed within 1 hour of placing the order. Please contact customer support immediately. Once the order status changes to "Processing," we cannot alter the destination.

25. How long does standard delivery usually take?

Standard delivery typically takes 3-5 business days for US and Canada orders, and 5-7 business days for UK and EU orders, depending on local courier schedules.

26. What happens if my package is lost or damaged?

If your tracking shows delivered but you haven't received it, or if items arrive damaged, contact us within 48 hours. We will open an investigation with the courier and send a replacement order immediately.

27. What is your return policy for physical products?

We offer a 30-day return policy for all hardware. Products must be returned in their original packaging with all included accessories. Devices damaged by misuse are not eligible for return.

28. How do I initiate a return?

Log into your account, go to "Order History," select the item you wish to return, and click "Initiate Return." You will be provided with a prepaid shipping label to print.

29. Do I have to pay for return shipping?

No, return shipping is completely free for customers within the 30-day return window. Use the prepaid shipping label generated through our return portal.

30. When will I receive my refund after returning an item?

Refunds are processed within 5-7 business days after our warehouse receives and inspects the returned item. It may take an additional 3-5 days for the funds to appear on your bank statement.

Section 4: Product Troubleshooting & Tech Support

31. How do I connect my NovaCore device to Wi-Fi?

Open the NovaCore app, tap the "+" icon to add a device, and follow the on-screen instructions. Ensure your phone is connected to a 2.4GHz Wi-Fi network, as our smart devices do not currently support 5GHz bands.

32. What should I do if my smart camera won't turn on?

First, check that the power adapter is securely plugged into both the wall and the camera. Try using a different outlet. If the device still has no power light, contact support for a warranty replacement.

33. How do I perform a factory reset?

Locate the small reset pinhole on the back or bottom of the device. Using a paperclip, press and hold the button for 15 seconds until the LED light flashes red. The device will reboot to factory settings.

34. Is your product compatible with Apple HomeKit, Google Assistant, or Alexa?

Yes, all NovaCore Gen-3 devices natively integrate with Amazon Alexa and Google Assistant. Apple HomeKit support is currently in beta and requires the NovaCore Hub for integration.

35. How do I update the firmware on my device?

Firmware updates are pushed automatically between 2:00 AM and 4:00 AM local time. You can also manually check for updates in the app under "Device Settings" > "Firmware Info."

36. Why is my NovaCore app crashing?

App crashes are usually resolved by updating the app to the latest version in your phone's app store. If the problem persists, try clearing the app cache (Android) or reinstalling the app (iOS).

37. Can I use my smart thermostat offline?

Yes, the NovaCore Thermostat will continue to follow its pre-set schedule and can be adjusted manually via the touchscreen without an internet connection. However, remote control via the app requires internet access.

38. What is the warranty period for your products?

All NovaCore hardware comes with a standard 1-year limited warranty covering manufacturing defects. Customers subscribed to our NovaProtect annual plan receive an extended lifetime warranty on all active devices.

39. How do I claim warranty service?

Contact our technical support team via phone or email. A technician will walk you through troubleshooting. If the hardware is deemed defective, we will issue an RMA number and ship a replacement immediately.

40. Where can I find the user manual?

Digital user manuals and quick-start guides are available in the "Support" section of the NovaCore app and can be downloaded as PDFs from www.novacoresystems.com/manuals.

Section 5: Privacy, Security, & Data

41. How do you protect my personal data?

We use industry-standard AES-256 encryption for all data stored in the cloud, and end-to-end encryption for video streams. Your password is hashed, and we conduct regular third-party security audits.

42. Do you sell my personal data to third parties?

No. NovaCore has a strict no-sale policy regarding user data. We do not sell your personal information, video footage, or home telemetry data to advertisers or third-party brokers under any circumstances.

43. How do I request a copy of my data?

Under the GDPR and CCPA, you can request your data by emailing privacy@novacoresystems.com. We will provide a secure, downloadable zip file containing your account data within 14 business days.

44. Are my payment details secure?

Yes. NovaCore does not store your full credit card number. All payments are processed through Stripe, a certified Level 1 PCI DSS compliant payment processor.

45. Does the smart speaker record audio all the time?

No. Our smart speakers use local, on-device processing to listen only for the wake word ("Hey Nova"). Audio is only recorded and sent to the cloud for processing after the wake word is actively triggered.

46. How do I set up two-factor authentication (2FA)?

Log into the app, go to "Security Settings," and select "Enable 2FA." You can choose to receive verification codes via SMS text message or by linking an authenticator app like Google Authenticator or Authy.

47. What should I do if I suspect my account is compromised?

Immediately change your password using the "Forgot Password" flow, ensure 2FA is enabled, and review the "Authorized Devices" list in your settings to remove any unrecognized logins. Contact support for further assistance.

48. Do you use cookies on your website?

Yes, we use strictly necessary cookies to keep you logged in, as well as analytics cookies to improve our website performance. You can manage your cookie preferences using the banner at the bottom of our homepage.

49. How long do you retain my video footage?

Depending on your NovaProtect tier, encrypted video footage is retained in the cloud for 7, 14, or 30 days. After the retention period expires, the footage is permanently deleted from our servers.

50. Where are your data servers located?

User data is stored regionally to comply with local laws. US and Canadian customer data is hosted on AWS servers in Northern Virginia. European and UK customer data is hosted in Frankfurt, Germany.
